TRIUMPH OF AMERICANISM TOMORROW IS FORECAST.

Volley of Bullets by Enraged Citizens Ends Raid of I.W.W. Habitable.

Victory.
AUSTRIANS SMASHED.
Rolled Down Slope by Italians.
Desperate Battle on Carso Plateau Won in Dash for Trieste.
Humanians Still Unable to Stem Advance of Falkenhayn's Troops.

SOLDIERS READY FOR BALLOTING.
Quiet Campaign on Border Devoted to the Mexican Question.
[BY A. P. NIGHT WIRE.]
EL PASO (Tex.) Nov. 5.—An election campaign without public orators, parades or demonstrations carried on in various State guard camps, will come to an end Tuesday, when the guardsmen will express themselves on what they considered the main issue, the Mexican question. All other issues have been lost sight of in the privacy of the tents. The commissioners sent by their States will appoint election officers in each company, telegraph the unofficial returns and carry back the ballots for the final count. The guardsmen have the same standing as if they had not left their homes so far as the voting is concerned.

SIX SLAIN AT WHARF.
I. W. W. in Battle with Posse.
Desperadoes on Steamer Seek to Land at Everett, Wash. Fire on Officers.
Citizens are Shot Down, but Miscreants are Driven Back to Seattle.

Submarine ready to unload.
The safe arrival of the merchant-submarine Deutschland at New London, Ct., on her second voyage across the Atlantic from Bremen, has again startled the country. The Deutschland is a fast vessel, made fast to cluster piling at a distance of fifty feet from the pier, the stern of the ship hard and fast against the New London bank of the Thames River, and in such a position that with the ship on one side, the pier on the other, and the bank at one end, an open water space 50 by 385 feet is made, enclosed on three sides. To complete the enclosure a floating gate, built of pontoons, is made fast to a piling at the bow of the Deutschland. The cross shows the submarine's location.

"IT WILL BE HUGHES."
REPUBLICAN SLOGAN.
New York Pivotal State; Silent Vote to Decide Issue; Claims Conflict.
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]
NEW YORK BUREAU OF THE TIMES, Nov. 5.—It will be Hughes. That is the prospect today, spoken for publication and "in confidence" by Republican headquarters. Their Democratic opponents hail the victory of Wilson quite as loudly, and with equal conviction, perhaps, but to the impartial observer, the G.O.P. prediction rings the truer.
The race will be close, there will be no landslide and as usual it is the silent vote that will decide the issue.
There are more Republicans in the country than Democrats normally. Now, after the storm of Progressivism has passed over, conditions are drifting back toward political normalcy again. All is not yet quiet in the folds of the two great parties and many of the former sheep of the G.O.P. are with the party now in power, but it is certain that a vast majority of those who followed the Moose four years ago have returned to their old allegiance. This fact predicts the election of Hughes.
Hughes has twenty States. These cast 252 votes in the Electoral College. This means that if the States which his party regards as true to the faith, all remain loyal, Hughes will need only fourteen more electoral votes to be victorious. The most promising of the doubtful States are: New Jersey, with four; Wisconsin, with thirteen; Connecticut, with seven and West Virginia, with six. New Jersey alone will bring victory to the G.O.P. CLAIMS FOR WILSON.
Wilson is also certain of twenty States, casting 197 votes. Out of the doubtful ones, the State of Utah is a much larger number than his opponent to win.
In this election New York is as usual the pivotal State. With its forty-five electoral votes in the Hughes column he is off to victory with a running start. If by any chance the Empire State should swing the other way, the Republican hopes of a return to Presidential power would be crushed early in the evening of election day. On New York the election hinges, and on New York the Democrats cast their eyes. Hughes, it is conceded, will come into the city with 125,000 votes to the good from the Republican vote. Hughes, it is conceded, will come into the city with 125,000 votes to the good from the Republican vote. Hughes, it is conceded, will come into the city with 125,000 votes to the good from the Republican vote.

DEAD.
VERETT (Wash.) Nov. 5.—At least six men were killed and forty others wounded today in a pitched battle at the Everett City wharf between 250 members of the Industrial Workers of the World, who came here from Seattle on the steamer Verona, and a posse of 150 citizens, headed by Sheriff Don McRae. Sheriff McRae is among the seriously wounded.
Following is a list of the casualties among the Everett citizens' posse:
DEAD.
C. O. CURTIS, formerly Lieutenant Co. L, Second Infantry, Washington National Guard.
WOUNDED.
Jeff Beard, deputy sheriff, two wounds in chest, serious.
James Broadhurst, shot in left side, dangerous.
E. Beuhrer, high school engineer, shot in chest; dangerous.
R. E. Brown, lumberman, shot in leg.
Lewis Connor, shot in leg.
Owen Clay, shot in right arm.
Fred Durr, shot in head, not serious.
A. J. Ettenborough, shot in head; not serious.
Athol Gornell, Spokane, University of Washington student, shot under left shoulder; dangerous.
Joseph Irving, Sr., wealthy lumberman, former member State Legislature, shot in foot.
James Manner, shot in leg.
Donald McRae, Sheriff of Snohomish county, shot twice in leg.
Lee Malquist, shot in head; not serious.
J. C. Rymer, shot in leg.
E. Stuchell, Jr., University of Washington student, shot in head; not serious.
Charles Tucker, shot in head, not serious.
Harry Blackburn, shot in chest; serious.
H. C. Faup, shot in foot.
Lee Jamieson, single manufacturer, wounded on head.
I.W.W. CASUALTIES.
Following is a list of casualties among the members of the Industrial Workers of the World, who were brought back to Seattle:
DEAD.
HUGO GERLOT, aged 24, Milwaukee, Wis., seaman, identified by card of dead, Lakes Carriers' Association.
JOHN LOONEY, aged 26, Ayer, Everett, laborer.
HARRY PIERCE, aged 28, Seattle, laborer.
JOHN JOHNSON, laborer.
FELIX HARRON, aged 22.
THE WOUNDED:
George Brown, shot in back.
E. J. Shappero, shot in right leg.
D. B. Armstrong, two slight wounds in head.
Joseph Gehlitz, shot in both legs.
John Ryan, shot in right shoulder and right leg.
Mario Marino, shot in back.
Carl Barth, shot in back.
Joe Kelly, shot in left leg and left shoulder.
Fred Savary, shot in left hip.
George Turquist, shot in left leg.
Ira Luft, shot in right shoulder.
Edward Truitt, shot in left shoulder.
H. Peterson, slight head wounds.
L. S. Davis, boat's cook, slight flesh wound in arm.
J. A. Kelly, shot in head.
D. J. McCarthy, shot in head and right leg.
Steve Sabo, shot in abdomen.
C. C. England, shot in left knee.
Oscar Carlson, nine wounds, eight in abdomen, one in right arm.
John Adams, shot right shoulder.
Albert Schriver, two wounds right leg.
A. Doniger, shot left arm and head.
Walter Mulholland, shot in hip.
H. Golden, shot in left leg.
P. Baran, shot in right leg and right hand.
Unidentified man, shot through lungs.
It is said at least two of the wounded will die.
The Verona reached Everett shortly before 2 o'clock. In the morning of the Industrial Workers of the World invaders had been previously announced in messages sent to Everett from Seattle headquarters. A call to Industrial Workers of the World members from all over the State had been issued earlier in the day. The Verona was met at a meeting held Saturday night planned to meet the invaders and deny them privilege of landing.
SHERIFF IS READY.
When the Verona reached the city wharf Sheriff McRae, who was

SHOT-RIDDLED I.W.W. STEAMER IS HELD UP AT SEATTLE PIER.

[BY A. P. NIGHT WIRE.]
SEATTLE, Nov. 5.—When the Verona returned from Everett she showed many bullet wounds in her sides and most of her windows were broken. Of the sixteen windows in the pilot house in which Capt. Chance Wyman was standing at the wheel when the firing began only one remains whole. One was pierced by twenty-seven bullets. Only two of the crew and officers, numbering eight, escaped the fusillade, but none was seriously wounded. Capt. Wyman, Steward L. S. Davis and Fireman Arthur Sullivan, of the Verona, declared that the first shot fired came from one of the Industrial Workers on the boat. Capt. Wyman said:
"We had just touched the dock at Everett and we had a spring line fast when Sheriff McRae appeared on the dock. You can't come ashore; you can't come ashore. Who's the leader?" Sheriff McRae shouted at the crowd.
"By this time as many as could crowded into the bow of the boat, on the cabin or promenade deck. The crowd was not twenty feet distant. Sheriff McRae's remarks were addressed to the crowd, not to me. I was at the wheel in the pilot house. His remarks were laughed and shouted at."
"Sheriff McRae made a movement that threw back his coat. A holster was revealed and his hand was

placed or was about to be placed on the handle when a shot was fired from the boat. As quick as a wink there was a fusillade on both sides. Bullets whizzed on all sides of me. I dropped to the floor of the pilot house and crawled through a door into my cabin. I snatched the mattress from the bed and threw it against the wall on the shore side and none too quick for a score of bullets came through the wall and plunked into the mattress I was hiding behind. There was a movement of the boat and I realized that we were backing up."
"When I saw that the Verona had

been abandoned by the Carranza forces.
Gen. Gonzales, in Juarez, said today that he had ordered the execution at Matamoros of the Villa bandits captured at San Geronimo.
TREVINO'S STATEMENT.
[BY A. P. NIGHT WIRE.]
CHIHUAHUA CITY, Nov. 5.—Gen. Trevino stated here tonight that as all telegraphic communication was cut between Chihuahua city and Parral, as well as to points south of Chihuahua city, he was unable to learn anything regarding Americans who had been in Parral. He said he would use every effort at his command, however, to get news of them as soon as communication was improved.

HERRERA ABANDONS PARRAL; FATE OF AMERICANS DOUBTFUL.

[BY A. P. NIGHT WIRE.]
Dr. Fisher was described as an elderly man in feeble health, married to a Mexican woman, and owning one of the finest homes in Santa Rosalia.
Gen. Herrera was ordered to proceed to Escalante, a station on the Mexican Central Railway some distance below Juarez, and the bandits still occupy Jimenez, according to the passengers.
Conditions were reported quiet in Chihuahua city.
Four Americans arrived at Juarez from Chihuahua city, but could add nothing definite to the reports current in Chihuahua.
The garrison at Chihuahua city was estimated at 8000 men. It was said that the placing of artillery on a train there as a movable battery gave rise to a rumor, which was officially denied, that the city was to be abandoned by the Carranza forces.
Gen. Gonzales, in Juarez, said today that he had ordered the execution at Matamoros of the Villa bandits captured at San Geronimo.

VALUABLE OIL CONCESSION IS GRANTED BY COSTA RICA.
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]
NEW YORK BUREAU OF THE TIMES, Nov. 5.—An American syndicate headed by Washington S. Valentine of this city has just obtained what is declared to be the most valuable oil concession ever granted by a Latin-American government. Lincoln Valentine, nephew of Mr. Valentine, reached New York City today from Puerto Limon, Costa Rica, by way of Colon, Havana, and Key West, with the details of the grant. It embraces more than 1,000,000 acres of oil lands in Costa Rica and is between the Panama and Nicaraguan canals, which may

be carried on one of the bitterest fights ever waged in Central America against interests hostile to American commercial expansion," he said. "I got absolutely no co-operation or assistance from the government at Washington, despite the fact that the oil field over which we were endeavoring to control for Americans is the most valuable on the American continent. They are of the utmost strategic importance to the United States in the event that this country ever goes to war with a first-class power."
Lord Murray of Ellbank personally went to Central America three

HUGHES, SURE OF VICTORY, PASSES A QUIET SUNDAY

[BY A. P. NIGHT WIRE.]
NEW YORK, Nov. 5.—Both Democrats and Republicans profess entire confidence in the outcome of the voting Tuesday. Final orders have gone out from the headquarters here of the national committees to the chiefs in other States, but instructions will be transmitted tomorrow to sub-chiefs and lieutenants all the way down to the precinct managers.
Charles E. Hughes, the Republican Presidential candidate, who will remain here until after election, announced tonight that he considers his campaign closed and that he has no further statement to make. He told the few callers he had, however, that he felt sure of victory.
Mr. Hughes' day was uneventful. He left his hotel until after dinner tonight, when he went for a walk. The Republican nominees will vote Tuesday morning from the hotel here, which is his legal residence. The polling place will be an Eighth-avenue location.
Neither Vance McCormick, the Democratic national candidate, nor William R. Wilson, the Republican chairman, had statements to make today. Each spent part of the day at headquarters making plans for tomorrow.
President Wilson's final message to State and county chairmen, wired from Long Branch, was made pub-

lic at Democratic headquarters, without comment. It was said to speak for itself.
Eleventh-hour effort of both parties will be bent to "swinging" the election of Congressmen in doubtful districts throughout the country.
Frederick C. Tanner, chairman of the New York Republican State Committee, predicted that twenty-four Congressional candidates in this State would be elected by the Republicans and seventeen by the Democrats. In the two remaining districts, he said, the chances favor the Republicans. He repeated his earlier prophecies of the success of the national ticket, which he said was based on the same principle.
"The latest canvasses received by the Republican State Committee confirm my statement of last Monday that Mr. Hughes will carry the State by more than 100,000 votes," Tanner said. "And that Gov. Whitman, William M. Calder and the entire Republican ticket will be elected by substantially the same pluralities."
State Chairman Harris of the Democrats added nothing to the prediction he previously had made that President Wilson and the State ticket will carry New York by a large plurality. The Democrats contend that the Republican plurality is a foregone conclusion.

SOUTHERN CALIFORNIA. Oklahoma territory at Pasadena performs a very kind deed in providing for an aged worker.
Military honors will be given for Joe Bonquet, the daredevil aviator who lost his life in flying over the exposition grounds at San Diego.
Van Ness school pupils plant an olive field for the purpose of securing funds for a motion-picture machine.
PACIFIC SLOPE. Unusually heavy registration adds interest to election in California tomorrow.

THE GREAT WAR. The Situation to Date: Small gains for the Germans are reported on the Russian front.
The Russians declare they have made small gains in the Carpathians.
Fighting still continues in Macedonia along the Cerna River, but no important changes are recorded.
Berlin records the capture by the Teutonic allies of positions in the Pravaova Valley.
COMMENT ON THE SITUATION.
French troops have again smashed the German advance in the North of the Somme between Les Boeufs and Sully-Sallies, to the east of the latter place and on the St. Pierre Vaast wood sector. Important gains were made Sunday, according to the French communication. The attack on the St. Pierre Vaast wood netted the French three trenches on the northern side and the entire German positions on the southern outskirts of the wood. The British over a front of a thousand yards captured the hills in the neighborhood of the Butte de Warlen-court and the Verdun ridge, with both sides claiming successes at various points.
Villa continues his drive into Parral district, according to reports from below the border, while Carranza troops are vainly attempting to head off the bandit.

ARE UNITED FOR HUGHES

California Wings of Party Together Nationally.
Defection of Laborites Blame to Wilson Leaders.
Governor's Appointees Kick Over the Traces.

IN DENVER, WED.—(REUTERS DISPATCH.)
SACRAMENTO, Nov. 5.—The local differences in several congressional districts, Republicans and Progressives of the north are on the national ticket. Hughes Fairbanks will receive the support of both.
Federal patronage has been responsible for the defection of the northern and of some of the politicians on the water front. The main reason for the defection, however, falls to sustain the contention. A month ago San Francisco was conceded to Wilson by a small majority, odds are offered the pool rooms tonight that the will go for Hughes.

WOMEN'S FIGHT.
added interest in the political campaign was the State-wide campaign of women Hughes supporters in the non-suffrage States. They are not, however, opposed by the organization of California women as the All Parties League.

REPUDE WILSON.
The Garment Workers of America, one of the strongest of the organizations associated with the American Federation of Labor, repudiated the Wilson administration and a majority of its executive officers have declared for Hughes.

RAILROAD MEN.
enthusiasm over the eight-hour day as they were a month ago. They have found that it will reduce wages in almost as many instances as it will offer an increase, and it has the way to further arbitration.

IN ALABAMA. Santa Cruz and Santa Clara counties the Progressive party is practically solid for Hughes. The San Joaquin and Fresno counties are regarded as Hughes strongholds.

CURIOUS ENOUGH. Sacramento, the home of the State senate, is also the home of the Wilson sentiment in the North. The Democrats are claiming the seat by 2500 votes. This is due to the fact that the union labor points of the Governor are all for Wilson. They form the nucleus of the Wilson sentiment. The labor bureau, housing bureau, insurance and accident bureau and several others are filled with Democratic labor politicians. They have been working on the employees of the railroad shops here and claim to have most of them for the President.

THE GROWTH OF THE HUGHES MOVEMENT is reflected in the wages offered in the poolrooms here and in San Francisco. The week of some wages were made at the rate of 6 to 10 that Wilson would carry the State. There has not been a dollar of Wilson State money in the poolrooms since Friday afternoon of any odds. Ten to three are offered on Hughes and there are no odds on Wilson.

OUR FOR HUGHES.
All the elective State officials are campaigning for Hughes. Controller John S. Chambers has made a personal campaign for Republican nominees. He is a resident of Sacramento county and has done much in the last week to turn the tide against the President here. State Treasurer Richard B. B. is also out working for Hughes.

REPUBLICAN LEADERS are convinced that Hughes will receive at least an even break in Northern California and that his majority in the southern part of the State will be more than 40,000. Even money is offered in the poolrooms on a majority of 40,000 in the State.

POLICE RAID CHINESE HOUSE, RESCUE GIRL.
SACRAMENTO, Nov. 5.—A Chinese girl, aged from 9 to 10 years, two of them alleged to have been held as slaves in a house in the Chinese quarter, were rescued today by a posse of police who broke their way into the place with sledge hammers, pickaxes and crowbars. As a result of the raid, Lee Chong and Lee Shue were taken into custody charged with keeping a disreputable house.

Two of the rescued girls told the police that they had been brought to the United States recently by the father of the girl, who had been held in the house where they were rescued. The other girls said, in the house where the father of the girl was held, they were held in the house where the father of the girl was held.

PROHIBITION ISSUE IN NEBRASKA FIGHT.

BY A. P. NIGHT WIRE.
OMAHA, Nov. 5.—With both Democrats and Republicans claiming victory in Tuesday's election, Nebraska settled down today to await the results of the election.
The campaign has been one of the most interesting in years. Besides interest in the national and State tickets, a keen contest has been waged on both sides on the prohibition question.

BOTH SIDES CONFIDENT OF WINNING IN DAKOTA.

BY A. P. NIGHT WIRE.
SIOUX FALLS (S. D.) Nov. 5.—South Dakota voters Tuesday will decide whether Hughes or Wilson shall be given the State five electoral votes.
Peter Norbeck and Orville Rinehart, Republican and Democratic Governorship candidates, both express confidence. Prohibition and woman suffrage are chief among nine constitutional amendments to be voted upon.

BOTH SIDES CLAIM STATE OF INDIANA.

BY A. P. NIGHT WIRE.
INDIANAPOLIS (Ind.) Nov. 5.—Although the political speaking campaign was practically closed last night and both sides claimed victory there was no let-up in the pre-election work today.
Because of the fact that the Republican and Democratic Vice-presidential nominees are from Indiana the prohibition Presidential

ANTI-SALOON ISSUE EXCITES IDAHO.

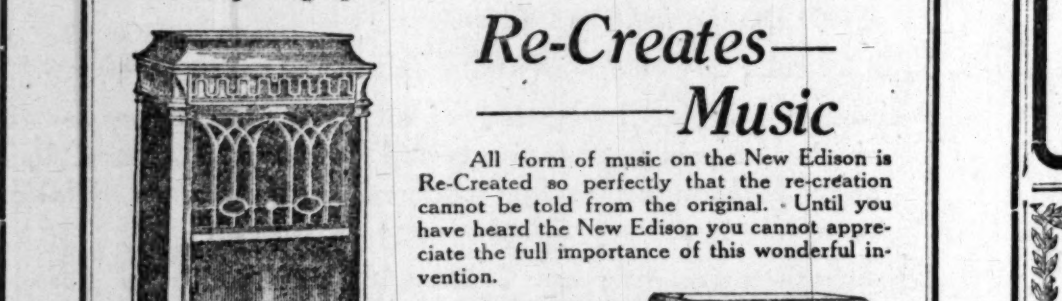

BY A. P. NIGHT WIRE.
BOISE (Idaho) Nov. 5.—The State and national campaigns are closing quietly in Idaho. Gov. Moses Alexander, Democrat, up for re-election, speaks for the last time in Boise Monday night, and D. W. Davis, his Republican opponent, will speak at Pocatello the same evening. Anti-saloon workers are campaigning to carry the Constitutional prohibition amendment.

SUFFRAGE ISSUE IN WEST VIRGINIA.

BY A. P. NIGHT WIRE.
CHARLESTON (W. Va.) Nov. 5.—Voters of West Virginia Tuesday will elect Presidential electors, one United States Senator and six Congressmen, beside State and country tickets. An equal suffrage for women amendment has aroused much interest in the State. The campaign has been so clouded with local and State issues that leaders of the Republicans and Democrats are able to see victory for their respective tickets by claimed majorities of 20,000 each.

Remember Your Vote May Mean Poverty or Prosperity for 293,000 Californians

Cast Your Vote AGAINST California's Enemies

Will you vote for a continuation of *license and regulation* or for a reign of *lawlessness and hypocrisy*? Will you vote for *continued prosperity or business depression*?

The first measure (Proposition No. 1 on the ballot) is frankly a prohibition measure. Knowing that the voters of the state would not deliberately confiscate the great vineyards, the breweries and other important industries which prohibition would destroy, prohibitionists have sought to accomplish the same result through a subterfuge. So they have also placed on the ballot Proposition No. 2, which has been widely advertised as an *anti-saloon measure*. Perhaps you have been deceived by this statement.

This is what Prohibition Amendment No. 2 Would Really Do:

Make it impossible for visitors or tourists to get a glass of wine in California.

Prevent any bakery from using brandy in mince pies or plum puddings.

Make it a crime to serve a wine punch at a public reception.

Prohibit any restaurant or hotel chef from using wine, brandy or beer in cooking.

Confiscate the wine cellars and close the bars of every club in the State.

Prevent the serving of wine at a public dinner or banquet.

Make it impossible for any person enjoying a vacation at a summer resort to enjoy a glass of wine or beer at meals or at his summer home.

Prohibit any motor tourist from enjoying a glass of beer at any resort in the State.

Eliminate every agency of a winery, brewery or distillery in California.

Prevent the sale of wine or beer by the gallon, bottle (or in any quantity) by grocery or other stores.

Make every hotel proprietor subject to arrest if one of his guests carried the customary flask to the hotel room.

Prevent a Californian having a glass of wine or beer with his meals the moment he left home.

Prohibit soliciting of orders and eliminate traveling salesmen.

Absolutely prohibit the serving of any alcoholic beverage with meals at hotels or restaurants and provide severe penalties to be imposed on the hotel or restaurant proprietor for violation, even if done without his knowledge or consent.

Discourage the manufacture of the finest grades of wine, because they are aged in bottle and sold principally in the hotels, restaurants and clubs of California.

Amendment No. 2 is a Real Prohibition Measure
and it would go into effect at the end of 1917

Vote NO Against 1 and 2
Both are Prohibition Amendments

CONTROL OF YELLOW ASTER HER PURPOSE.

MRS. DE PAU TELLS WHERE
THE STOCK IS HELD.

Declares She'll Never Consent to
Sale of Properties to a Third
Party, and that the Several Suits
Pending will be Carried to Su-
preme Court if Necessary.

"The control of the Yellow Aster
Mining and Milling Company has
not passed into the hands of the
Burcham interests, as was stated by
Albert Ancker in a statement given
recently," said Mrs. G. A. M.
De Pau last night, when seen at
the Engstrom apartments.

"I own 34,634 shares of the stock,
and through a broker I have an op-
tion on 17,512 shares, which gives
me 52,147 shares, or the control, as
there are but 100,000 shares of the
stock."

"That E. D. Moores should have
sold his stock to the Burcham in-
terests is ridiculous. He delivered an
option to Theodore F. Bental call-
ing for 17,512 shares of stock, and
the \$44,455 cash for the purchase
of that stock is now in escrow. Mr.
Bental filed a suit last Tuesday de-
manding delivery from Mr. Moores,
and if he has attempted to sell to
the Burcham interests he has vio-
lated his contract and will have to
stand a suit both for specific per-
formance and for damages."

"The Burcham estate never owned
but 7000 shares of the stock, and
that is all pledged as collateral and
will, I understand, be sold shortly
at public auction. I will buy this
stock. The only way that I can be
put out of this company is to sell the
mine to a third party, and as I own
over one-third of the stock this
cannot be done without my consent.
I will never give this consent."

"My opinion is that Mr. Ancker
made the statement that the Bur-
cham estate had control for a pur-
pose. I am informed that he and
his associates have been endeavor-
ing to negotiate a loan of \$75,000 on
the stock owned by Moores, Burch-
am and others. If this loan could
be made they could then buy con-
trol, were it not for the fact that
Mr. Moores has already signed a
specific contract to deliver to Mr.
Bental his stock, amounting to 17-
512 shares, for a consideration of
\$44,455."

"There are several other suits
pending, and they will go to the
supreme court, as I am determined
to control this property."

REDDEN CALL.

Hollywood Resident Expires at the
Breakfast Table.

John MacLean, aged 72 years, who
lately resided at No. 1541 Pol-
aris place, Hollywood, was sud-
denly called by death Saturday morn-
ing as he sat with his family at
breakfast. Death was due to heart
disease.

Mr. MacLean had been a resident
of this city for more than forty
years, and was active in business, and for ten
years connected with the health de-
partment of the city. He was a
member of the Christian Science
church and was identified with a
number of fraternal organizations.

In addition to a widow he leaves
seven children, three daughters and
four sons, the latter in various lines
of business in this city. The funeral
arrangements will be announced
later.

DEATH CALL.

Wood Resident Expires at the
Breakfast Table.
Mrs. MacLean, aged 72 years, who
recently resided at No. 1541 Poin-
sett place, Hollywood, was sudden-
ly taken by death Saturday morn-
ing at her breakfast table. Death was due to heart
failure. Mrs. MacLean had been a resident
of the city for more than forty
years. She was a member of the
First Presbyterian church, and was
connected with the health de-
partment of the city. She was a
devoted mother and a friend of
the Christian Science church, and
was identified with a number of
fraternal organizations. In ad-
dition to a widow she leaves
three children, three daughters and
one son, the latter in various lines
of business in this city. The funeral
services will be announced
later.

ELECTION RETURNS.

Come to The Times Building, First and Broadway, or
The Times Branch Office, 619 South Spring
Street, Election Night, Tuesday,
November 7.

The Times will bulletin State and national election returns on
Tuesday night in front of The Times Building, First and Broadway,
and The Times Branch Office, No. 619 South Spring street.
Up-to-the-minute returns will be received by special wires from
every section of California and from every other State in the Union,
and thrown upon large screens on the Tajo Building, First and
Broadway, and the Meredith Building, opposite The Times Branch
Office, No. 619 South Spring street.

The Times also will give returns by telephone to all who call.

BUSINESS MEN FIRM AGAINST SINGLE-TAX.

HERE is the resolution against
Amendment No. 5 that has
been widely adopted by busi-
ness and commercial organizations all
over Southern California.

Whereas, there is to be submitted
to the electors of the State of Cal-
ifornia, at the general election to be
held November 7 next, a single tax
amendment known as "Amendment
Number 5," directed toward the es-
tablishment of a single tax system
in this State, which provides that
"Public revenues, State, County,
Municipal and District, shall be
raised by taxation of land values ex-
clusive of improvements, and no tax
or charge for revenue shall be im-
posed on any labor product, occupa-
tion, business or person," which, if
adopted, will mean the abolition of
all other forms of taxation, caus-
ing the remission of approximately
\$15,000,000.00 to \$17,000,000.00 of
taxes now paid to the State by rail-
road, gas, electric light, banking, in-
surance, and other public and pri-
vate corporations, and the further
exemption of all firms and indi-
viduals from the payment of taxes,
except on land, frequently a minor
part of their taxable holdings, caus-
ing a further loss in taxes of over
\$21,000,000.00 now collected from
personal property, improvements on
real estate, rights of way, etc., etc.;
and,

Whereas this additional burden
would be borne alone by the farmer
and lot and land owner, who would
have to make up in additional tax-
ation this loss in revenue from pre-
sent sources; the avowed desire and
intent upon the part of the ad-
vocates of the proposed bill being to
have all unimproved lands taxed so
heavily that they will eventually
revert to the State, and,
Whereas if said amendment should
carry, effective January 1, 1917,
according to its provision an un-
certain condition would be cre-
ated, at least temporarily, between
the time of the abandonment of the
old system and the establishment
of the new (no provision being
made in this amendment for leg-
islation to collect the taxes from
January 1, 1917, until the levy for
the fiscal year 1917-18) and the per-
manent effect of the adoption of
this radical change would be so far
reaching and revolutionary as to
be beyond computation, and
Whereas through an act of the

Legislature there has already been
appointed, at an expense of \$75,-
000 to the people of this State, a
tax commission to investigate and
consider the whole matter of taxa-
tion, which commission has been
most diligent in its labors and is
expected to report its recommen-
dations to the next Legislature, mak-
ing it unwise and ill advised to
adopt any new form of taxation un-
til such report is rendered, and
Whereas this being an initiative
measure, it would not be amendable
by the State Legislature, but any
errors and inequities could be cor-
rected only by initiative process, thus
adding to the difficulties of the sit-
uation, and

Whereas it seems to us that this
measure, if adopted, would be most
harmful and dangerous to the finan-
cial, commercial, industrial and all
other interests of this State and
would deter all foreign financial
institutions from doing business
with us, thus retarding our progress,
development and growth.

Now therefore be it resolved by
this organization that we are
alarmed by and unqualifiedly op-
posed to this amendment and ex-
press it as our belief that a change
so revolutionary and difficult of ad-
justment would be inimical to an
effective and efficient government
of every citizen of this State, and
we therefore recommend that our
members and their friends be
strongly urged to use every effort
to prevent its passage and to vote
against the adoption of this amend-
ment.

Be an Early Bird.

day or early Saturday.

POOR PROPHET. DIES AS HE BOASTS.

Laborer Boards Street Car, Saying
He Will Live to a Venerable
Age—Lurches and Falls
and Cracks His Head
Upon Pavement.

James R. Blanchard crawled onto
a Maple-avenue car early yesterday
morning, feeling so good he told the
conductor he expected to live to be
135 years old. In his pocket he had
a clipping of a news dispatch telling
of an Indian in Mexico supposed
to be approaching that age.
While fumbling in his pocket for
the clipping, he swayed, lost his
balance and pitched from the plat-
form head foremost to the pave-
ment. He died a short time later
at the Receiving Hospital. His
skull had been fractured.

The body was taken to the Breeze
morgue.
Blanchard was 45 years old. He
lived at No. 415 East Twenty-ninth
street and was a laborer. The acci-
dent occurred at Twenty-ninth street
and Maple avenue.

ANOTHER. NAB ALLEGED THIEF.

Man Sought on Charge of Stealing
Automobile Is Arrested in San
Francisco, According to
Word Received by Auto
Club Officials Here.

Continuing its campaign to break
up gangs of automobile thieves
operating in Los Angeles, the theft
bureau of the Automobile Club of
Southern California announced yes-
terday that James Lane, who is al-
leged to have stolen an automobile
belonging to a Rosedale garage, had
been arrested in San Francisco with
the stolen car.
This car was stolen October 29
and, through the efforts of Detec-
tives Powell and Love of the Auto-
mobile Club, was located in the
northern city Friday. Before leav-
ing Los Angeles, it is alleged that
Lane stripped two cars in the garage
of their magnets.
It was stated yesterday by club
officials that since the breaking up
of the "Broadway gang" three weeks
ago automobile thieves for a time
suffered a relapse. However, indi-
cations are that other gangs are
forming and that motorists should
exercise particular caution in guard-
ing parked cars.
Lane will be returned to Los An-
geles tomorrow. He was employed
in the garage of Hutchinson &
Powell from which it is alleged, he
stole the automobile located in San
Francisco.

Every grocery store has its customers who
order POSTUM regularly instead of coffee.

They are former coffee drinkers who, for
health's sake, changed their table drink.

If you suspect that coffee contributes to your
discomfort or illness, ask the grocer for the
names of several POSTUM users in your
neighborhood; get in touch with them and
hear their story.

Or, secure a tin of INSTANT POSTUM and try
it on the family table for ten days instead of
coffee.

"There's a Reason" for POSTUM

To the Voters of California

There are two candidates for the office of United States Senator from California. One is George S. Patton, of Los Angeles, Democrat; the other is Governor Hiram W. Johnson, a registered Progressive, who secured the Republican nomination in the August primary election.

Four years ago the Republicans of California were denied the right of voting for their party candidate for President. They were compelled to vote for one of two men for President, neither of whom was a Republican.

In the present campaign the election laws have been manipulated so that the Republicans of the state are unable to vote for a Republican for United States Senator.

Governor Johnson is still registered as a member of the Progressive party, and he refuses to leave that party and become a Republican until after the election.

Mr. Patton is what he has always been—a Progressive Democrat.

California is largely a government by commission. Hiram Johnson has appointed the commissions.

More than 80 per cent of the state appointees are from the north.

Will you approve the action of repealing the law that forbids the Governor of the state from using his high office to elevate himself to the upper house of Congress?

The election of George S. Patton United States Senator preserves the precedent of 24 years.

The election of George S. Patton assures to the people of all California impartial, efficient and effective representation in the United States Senate.

By voting for George S. Patton for United States Senator you vote for a man who will be in touch with the administration and with Congress; who will have beside him Senator James D. Phelan—the two constituting a force for California impossible to attain by any other course at the polls.

As Senator Phelan says: "It stands to reason that two men of the same dominant party in Washington can do more for California than one man."

This Is Plain Business Sense.

THINK IT OVER

GEORGE S. PATTON CAMPAIGN COMMITTEE

ASK CITY'S AID.

Hollywood Women's Club Seeks Help in Park Project.
Assistance from the city in acquiring land for park purposes around the clubhouse of the Hollywood Woman's Club was asked of the Council Saturday by Mrs. R. B. Lane, president of the club, and Mrs. Ida M. Melville, chairman of its park committee. The land needed is bounded by Sunset boulevard, La Brea avenue, Hawthorn avenue and Orange drive, and Mrs. Lane said options at reasonable figures have been obtained. The amount required is about \$43,000.
The opinion of Councilmen seemed to be that the best way to secure the money would be by the formation of an assessment district and a conference on this subject will be held tomorrow morning which will be attended by representatives of the club, the Public Welfare Committee of the Council and City Attorney Stephens.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."
—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.
If there is any symptom in your case which makes you write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

PLAYLET OF WAR.

Predicament Met by Many Thousands of American Families Because of Struggle in Europe is to be Depicted Before State Society.

"War or Peace?" a playlet written by Dr. William Wenzlick and portraying a predicament common to thousands of American families because of the hostilities in Europe, will be presented by Misses Vivian Wikadal and Winona Wenzlick, the latter the daughter of the author, at a meeting of the Wisconsin State Society this evening in the Times Assembly Rooms.

Vivian will have the role of a mother of English ancestry and sympathy, whose brother is fighting with the allies against her husband, who is of German descent. Winona will play the daughter—the hyphen that holds mother and father together.

At first all is patriotic enthusiasm and pride, looking forward to victory. They dwell upon the causes and purposes of the war, in a humorous way, and upon the fact that the contending armies pray for success, which God has granted neither.

But news that brother and husband fell mortally wounded in mutual combat in France fills mother and daughter with grief, bereaved of those who should have loved and lived for them, but fought and died instead. In despair and for the sake of humanity, they urge universal brotherhood and lasting peace.

Other features of the programme are: Talk on "Our Public Schools," by Charles J. McCormick of the Board of Education; piano solo, Miss Florence Johnson; song, Miss Marion Johnson; piano solo, Miss Grace E. Dow; contralto solo, Helen Zschetsche. Refreshments will be served and there will be dancing.

MAY BUILD REFINERY.

Union Oil Plant at the Harbor is Probably to Go Up Soon. That Larger Profits May Come From Fullerton Field Yield of Crude.

It is probable the Union Oil Company will undertake the construction of a refinery at Los Angeles Harbor in the near future. This action has been contemplated by the company for several years, but nothing has been done until recently, when options on several pieces of

property were secured in the vicinity of Wilmington.
The company already has two pipelines to the harbor from the Fullerton district, and has been tapping the oil which passes through these in the field. With a refinery it would be possible to secure a much larger profit from the crude, as kerosene and lubricants could be made.

The company has a refinery at present in the northern end of the State, but the growth of production

To Teach Lesson of Man's Brotherhood

Misses Vivian Wikadal and Winona Wenzlick, who will present tonight at a meeting of the Wisconsin Society a playlet dealing with the problems the European war brings home to American families.

property were secured in the vicinity of Wilmington.

The company already has two pipelines to the harbor from the Fullerton district, and has been tapping the oil which passes through these in the field. With a refinery it would be possible to secure a much larger profit from the crude, as kerosene and lubricants could be made.

The company has a refinery at present in the northern end of the State, but the growth of production

property were secured in the vicinity of Wilmington.

The Question Is Which Is Mr. Wad's Party.

BARNEY NOT TO DRIVE.

Barney Oldfield last night announced his withdrawal from the Vanderbilt and Grand Prix races at Santa Monica on November 16 and 18.

Harry Miller, who is building a new engine for Oldfield's De Sage, has found that it will be impossible to complete the job in time for the races.

This was a severe disappointment to Barney. In preparation for the contest, the "Master Driver" climbed on the water wagon three weeks ago, and has since been quietly conditioning himself.

Club, descending from the lofty heights of political culture, to a basket picnic next Saturday, have announced their intention of holding a golf in time for the races.

CHANCE DAY TURNS OUT TO BE HOWLING SUCCESS.

Thousands do Honor to Powers' Coast League Champions—Carl Sawyer is Side-ripping Comedian. Movies Play Fake Game—Angels Wallop the All-Star Aggregation.

LOS ANGELES fans yesterday replied to San Francisco's insinuation that this is a turntable town from a sporting standpoint.

The "Chance Day" celebration proved to be the greatest event in honor of a baseball championship ever staged in the West, and with the frank candor due to all concerned it should be stated that Sealtown, which is so prone to sneeze in this direction, signally failed to show its appreciation of a pennant in equal measure last year.

The occasion was a splendid testimonial to Johnny Powers, Frank Chance and the team and gave ample assurance that the Angels, after a long hard winter, and make them ambitious to repeat.

TESTIMONIAL. The occasion was a splendid testimonial to Johnny Powers, Frank Chance and the team and gave ample assurance that the Angels, after a long hard winter, and make them ambitious to repeat.

TUFTS MAY TOUR COAST.

Medford (Mass.) Nov. 5.—The Tufts College football team may tour California and other Western States, playing games with leading college eleven during the last three weeks in December, it was learned today.

ST. MARY'S WINS FOOTBALL GAME. (BY A. P. NIGHT WIRE.) SAN FRANCISCO, Nov. 5.—St. Mary's College of Oakland, Cal., the American football team which will meet the University of California varsity team next Saturday in the last practice game before U. C. and Washington clash November 18 in "the big game," defeated the Crystal Club of San Francisco today, 17 to 0.

Olson and Gueto made touchdowns, which were both converted and Turnbull kicked a goal from the field.

FULLERTON WINS. (BY DEBUT WIRE—EXCLUSIVE DISPATCH.) FULLERTON, Nov. 5.—By a score of 3 to 1 the Fullerton club, semi-professional champion of Southern California, defeated the Anaheim-Busch club of Los Angeles here this afternoon. Decanniere, who opposed the Brewers, allowed only three hits. Errors on both sides were even, Fullerton making two and the Anaheim-Busch club two. Fast fielding of both teams featured the game.

COLLEGE clothes are not especially different from those worn by business men of college age; if they were, college men wouldn't wear them. But it's a fact that HART SCHAFFNER & MARX VARSITY FIFTY FIVE MODELS are the favorites with college men; they have a smartness, an individuality, a real dignity in design which such men want.

Overcoats The new belt-back model—Varsity 600 Single or double breasted. The smartest overcoat of the season.

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD

To Be Demonstrated.
A sales demonstration along original lines is to be a feature of the meeting of the Sales Managers' Association at the Alexandria at 6:15 p.m. Wednesday.

To Be Reorganized.
The Southern California Alumni Association of the University of Illinois is to be reorganized at a meeting of members at Sycamore Grove Saturday. There are about 350 graduates of the Illinois institution in Southern California.

On the Why and Wherefore.
The work of the University of Southern California will be explained in "Why Los Angeles is Great and Getting Greater" at the meeting of the Advertising Club at the Clark at noon tomorrow. Other speakers will be Rob Wagner and W. C. Shelton.

Truvelo Home Activities.
The work of the Truvelo Home, No. 2470 North Griffin avenue, was inspected by the Mothers' Club of the Church of the Brethren one afternoon last week on the invitation of Mrs. M. Louise Coggeshall, the matron, and her staff of assistants. The inspection refreshments were served. The Truvelo Home, at present is caring for twenty-eight girls and fourteen babies.

Brown House Dinner.
A dinner for the workers and friends of the Brown House Settlement Association will be given at Christopher's, Wednesday evening at 8:30 o'clock, for which reservations may be made by telephoning Brown House, A1563, before that date. All persons interested in social welfare problems are invited. The principal speaker will be Miss Mary E. Lent of Baltimore, secretary of the National Public Health Nursing Association. Miss Margaret Hodgen of the economics department, University of Southern California, will also speak.

Costs More.
BAKERS RAISE THEIR PRICES TO RETAILER

ULTIMATE CONSUMER PAYS FOR THE INCREASE.

Former Five-cent loaf Now Sell for Six Cents, and Prices of Larger Ones Will be Raised in Proportion, Coincident with Putting into Effect New Ordinance.

Coincident with the going into effect of the bread ordinance, fixing the standard weight of loaves at twelve, twenty-four, thirty-six and forty-eight ounces, the Los Angeles Wholesale Bakers' Association, comprising all the wholesale and French bakeries in this city, about thirty in number, have raised the price of their bread to the retailer, who in turn will pass the raise on to the consumer.

Henceforth the twelve-ounce loaf will be 6 cents, and the twenty-four-ounce loaf 12 cents, as against 5 and 10 cents as formerly. The bakers say they cannot afford to sell a twelve-ounce loaf for less than 6 cents to the retailer, and he, of course, insists that 1 cent is as little as he can afford to handle it for. The prices on the larger loaves will be raised correspondingly, and the restaurants will also be called on to pay their share of the additional burden.

Just what action will be taken by the independent bakers is problematical. The association states that it costs from 4½ to 5½ cents to produce a twelve-ounce loaf, but inquires as to whether this cost ratio held good on the larger loaves was answered by saying that the cost figures were not taken on the larger loaves, but that the cost would about hold the same all the way through. The association states that it is glad the ordinance has been passed and will co-operate with the authorities in seeing that it is strictly enforced. The officers say that the twelve-ounce loaf at 6 cents is cheaper than the old loaf at 5 cents and that from now on when a loaf of bread is purchased the consumer is absolutely sure that he is getting exactly what he pays for.

"It will have a beneficial effect on the bakery business," said R. T. West, secretary of the association. "Conditions have been bad, and the business has been demoralized. Bakers have been losing money and the competition with which we are to encounter practices that will now be entirely eliminated."

ATTEMPTED WRECK?

Negro, Now Held in City Jail, is Believed to Have Planned to Ditch Sunset Limited Train Near Indio—Will be Investigated.

Believed by the police to have attempted to wreck the "Sunset Limited" near Indio, early last night, James Wilkinson, a negro, 18 years of age, was locked in the City Jail and is being held for investigation on a suspicion charge.

According to the train crew, Wilkinson flagged the train down near Indio just before it left the track and began the switch and flagged the train down to prevent a wreck. The police claim that Wilkinson only wanted a ride into Los Angeles, and opened the switch himself before flagging the train, so that if the train failed to stop it would be wrecked.

From what the police were able to learn last night, the prisoner had been thrown from an inbound freight train at Indio, and not having any money with which to finish his trip to this city, opened the switch and then flagged down the passenger train.

BAD CHECK CHARGE.

Capt. Hugo Freilich, formerly master of Mrs. Clara Baldwin Stocker's yacht California, was arrested at the harbor Saturday charged with cashing fictitious checks. He was held in default of \$2,000 bail.

Capt. Freilich recently took the California to New York via the Panama Canal and returned overland. He was slated for a berth on being rebuilt for service as a passenger and freight carrier between this port and Mexican ports.

WANTS REHEARING.

An application for a rehearing of his case against the Tijuana Water and Power Company was filed with the State Railroad Commission, Saturday, by F. Hammond. Mr. Hammond had asked the commission to direct the company to serve water to forty-seven acres which he owns in Hansen heights, but the complaint was dismissed.

BUSINESS BRIEVITIES.

FRIENDS WORK FOR JOY CLARK.

Short-term Candidate Makes Whirlwind Campaign.

Supporters Resent the Canard Against J. S. Dodge.

District Attorney Confident on Election's Eve.

Gathering momentum with every hour, the fight to elect Joy Clark Congressman for the short term in the Tenth District is gaining supporters, and the candidate's headquarters are being flooded with pledges of votes, coming in person, over the telephone and by mail.

Although Joy Clark is a registered Republican, many Democrats and Independents are said to be putting their shoulders to the wheel to send him, one of Los Angeles' most prominent and able young business men, to Washington.

Scores of Los Angeles' most influential citizens are numbered among the Joy Clark workers and thousands of personal letters have been sent out in the candidate's behalf. Republicans, who have steadfastly followed the flag, cannot stand for the Progressive candidate.

The following letter has been sent out from Joy Clark's office, under his personal signature, giving his qualifications for election:

"I am not appealing to you along partisan or political lines, but, on the contrary, on my claims of being qualified for this office on the foundation of business experience.

"I have never been intimately associated with politics or politicians, but believe that if I am elected I will be able to give those problems arising in Congress which affect the interests of Southern California, intelligent judgment, and by so doing represent your best interests.

"Please take a pencil with you to the booth and write in the name of Joy Clark for the short term."

Canard Against Dodge.
Friends of Jonathan S. Dodge, candidate for Supervisor in the Fifth District, yesterday bitterly resented the circulation of an eleven-hour canard against him. It appeared on hand bills and was to the effect that Judge Wood, of which Mr. Dodge is Mayor, had failed to collect taxes in 1912 from the Cawson Cretich Farm, Mr. Dodge being president of that concern. Mr. Dodge last night made the following statement:

"In 1912, when the alleged taxes were uncollected, I was not the owner of a single share of stock in the company, nor was I in any way connected in an official with the City of South Pasadena.

"The estrich farm, according to its books, paid over \$4500 in taxes for the year of 1912. This alleged omission of taxes was first called to the attention of the city in December, 1912, by Rusk Harris, at that time president of the farm. So far as I know, no assessment for taxes has ever been made against this company that has not been paid."

Woodline is Grateful.
Dist. Atty. Woodline last night issued the following statement:

"At the close of my campaign for District Attorney, I desire to take this means of expressing my sincere appreciation of the tremendous and loyal support that is being given me throughout the county.

"Concerning those who have resorted to mud-slinging and vicious vilification during the campaign, Mr. Woodline said:

"It is a sufficient answer to every malicious statement that has ever been made or circulated by these defamers, that I find myself supported by well-known men and women of every political faith, religion and creed, a few of whom may mention as follows: United States Senator John D. Works, former United States Senator Frank P. Flint, Hon. R. F. Del Valle, Judge Albert M. Stephens, former president of the Los Angeles Bar Association, and the former presidents as follows: Hon. Oscar A. Trippe, Albert M. Stephens, Richard J. Dillon, William J. Hunsaker, J. H. Shankland, E. W. Britt, Henry J. Stevens, J. W. Anderson, J. P. Chandler, John D. Works and Lynn Helm; also Rev. C. C. Seelman, Dr. George H. Kress, Nathan Newby, member of the Morale Efficiency Executive Committee, chairman of the Civic Righteousness Committee of the Church Federation and author of the Anti-Prize Fight Law; Meyer Lissner, Dr. Robert C. Barton, executive secretary of the Morale Efficiency Committee; Dr. Guy Cochran, Mrs. Lewis R. Works, president of the Woman's City Club; Mrs. E. R. Brainerd, former president of the Woman's City Club; L. H. Valentine, Mrs. Seward A. Simons, vice-president, Morale Efficiency Committee and president of the Friday Morning Club; Dr. W. A. Lamb, Hon. Thomas

Automobilists, Attention!

Political Advertisement.
Works' Tribute to Fuller

Entered State Senate Committee on Finance. TO WHOM IT MAY CONCERN: William H. Fuller who is a candidate for Superior Judge, is an old acquaintance and friend of mine dating back twenty years or more. He is a man of high character, capable lawyer and would make a good Judge, if elected; I know him to be thoroughly conscientious and reliable.

JOHN D. WORKS
United States Senator
October 11, 1916.
Los Angeles, California.

Candidate Shows Voter How to Do It.

Joy Clark (seated) and Irwin J. Muma.

The former, who is a candidate for the short term in Congress, from the Tenth District, is explaining to Mr. Muma that he must write his (Mr. Clark's) name on the ballot tomorrow.

F. White, presiding judge of the Los Angeles Police Courts; Mr. W. Atwood, vice-chairman of the Probation County Central Committee; Griffith Jones, former judge of the Superior Court; Robert T. Hale, Attorney John W. Kemp, H. W. Frank, Warren Williams, city prosecutor; Rev. E. W. Kinchep, E. J. Loeb, Dr. M. L. Moore and John Lopovich.

Compliment to Judge Wood.
Walter Bordwell, former Superior Court judge, has issued a statement enthusiastically endorsing the candidacy of Judge Wood for reelection. The statement follows:

"I have known Judge John Perry Wood for about fifteen years. He is at present one of the judges of the Superior Court of this county, and a candidate for reelection.

"I have had abundant opportunity during the last twelve years to become well acquainted with Judge Wood's qualifications as a lawyer and a jurist, and without hesitation say that a failure to re-elect Judge Wood would be a public misfortune. He has the ability, the experience, the devotion to duty, the uprightness of character, and the keen perception of what is required of him, to make the service which he renders of inestimable value.

One of the strongest resolutions of the present campaign was passed by many prominent citizens of Azausa. In no uncertain terms they endorse the good work done by Judge Gavin W. Craig and strongly urge the voters of Los Angeles county to re-elect him to the Superior Court bench.

Starting Saturday and finishing tonight, Fred Frank will have covered his entire territory for the last time in his race for Assemblyman in the Sixty-fourth District. He was assisted in this automobile tour by such men as A. W. Francisco, Newton M. Allen, Charles E. Scott, B. W. Bramson, J. Deacon Taggart, E. R. Abbott and Frank D. Owen.

Judge McDonald's headquarters report that he has been steadily "making strength" no longer in his home city of Pasadena, but in the Bay District, where McDonald clubs have done good work.

That Superior W. E. Hinshaw, candidate for re-election in the Fourth District, will pull more than half the vote cast in the Santa Monica Bay District and even split the vote in Sawtelle, is the claim advanced at campaign headquarters of the incumbent.

Rufus V. Bowden, Democratic candidate for Congress in the Tenth District for the full term, has been endorsed by the Rev. S. T. Montgomery, legislative superintendent of the Anti-Saloon League, in response to a communication addressed to him by former Judge Albert M. Stephens, who is prominently connected with the Anti-Saloon League Movement.

With supreme confidence in the outcome of tomorrow's election in his favor, Mark G. Jones, candidate for Supervisor in the Second Supervisorial District, yesterday spent the day in checking over the elaborate plans made by his campaign managers for getting out the vote.

Replies.
DECLARES CHURCH DRY SIGNS FALSE.

ORGANIZATION OF GRAPE MEN ISSUES STATEMENT.

Statements displayed on Board in Front of First Methodist House of Worship said to be False and Misleading, Part of Misrepresentation Campaign.

Statements on three signs displayed on the steps of the First Methodist Church, in the interest of the dry campaign, are false, according to a declaration made public yesterday by the Southern California Grape Protective Association.

The statements called in question are:

First sign: "Does It Pay? Liquor-made crime costs California taxpayers \$25,000,000 annually." There is a statement the liquor interests contribute \$2,000,000 to the State revenue, and "Direct loss to taxpayers, \$27,000,000."

Second sign: "Saloon interests are hiding behind the grape vine." Third sign: "California Must be Prosperous! It costs \$10 to \$22 per ton to raise wine grapes. Wineries paid \$6 per ton in 1913. Table grapes sold for \$32 per ton. Which pays best?"

The statement of the Southern California Grape Protective Association says:

These are specimens of prohibition misrepresentation.

Sign No. 1 says that liquor-made crime costs California taxpayers \$25,000,000 annually. It does nothing of the kind. Two years ago a man named Hammond, described by the prohibition leaders as "an expert statistician," was quoted as saying that "crime caused by liquor cost this State about \$25,000,000. Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Sign No. 2 says that "saloon interests are hiding behind the grape vine." Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Sign No. 3 says that "California Must be Prosperous! It costs \$10 to \$22 per ton to raise wine grapes. Wineries paid \$6 per ton in 1913. Table grapes sold for \$32 per ton. Which pays best?" Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Sign No. 4 says that "California Must be Prosperous! It costs \$10 to \$22 per ton to raise wine grapes. Wineries paid \$6 per ton in 1913. Table grapes sold for \$32 per ton. Which pays best?" Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Sign No. 5 says that "California Must be Prosperous! It costs \$10 to \$22 per ton to raise wine grapes. Wineries paid \$6 per ton in 1913. Table grapes sold for \$32 per ton. Which pays best?" Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Sign No. 6 says that "California Must be Prosperous! It costs \$10 to \$22 per ton to raise wine grapes. Wineries paid \$6 per ton in 1913. Table grapes sold for \$32 per ton. Which pays best?" Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Sign No. 7 says that "California Must be Prosperous! It costs \$10 to \$22 per ton to raise wine grapes. Wineries paid \$6 per ton in 1913. Table grapes sold for \$32 per ton. Which pays best?" Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Sign No. 8 says that "California Must be Prosperous! It costs \$10 to \$22 per ton to raise wine grapes. Wineries paid \$6 per ton in 1913. Table grapes sold for \$32 per ton. Which pays best?" Hammond turned out to be, not an "expert statistician," but an expert crook, who never gathered statistics in his life, but is now serving a sentence at McNeil's Island, Wash., Federal Penitentiary, and has already "done time" for crime in the penitentiaries of Michigan, Illinois, Colorado and Kansas.

Fatalities.

TWO LIVES ARE TOLL OF ROAD.

Drives Car off Grade in Storm; Crushed.

Struck by Taxi may Die; Driver is Jailed.

Barry, hurrying from the district to cast his first Presidential vote, and a man bound on a journey were killed yesterday in automobile accidents, and another was dangerously injured.

Barry, 21 years old, was driving a car on West Main street, near the intersection of Broadway, when he was struck by a taxi cab. The car was driven off the road and crushed. Barry was killed instantly. The driver of the taxi cab, a man named [Name], was arrested and jailed.

times, and finally stepped in the path of a machine, piloted by Walter H. Cook, of El Segundo, driver of a stage to San Bernardino. With his wife and children he was in the stage, preparatory to coming to the downtown station and collect passengers. His wife had never been over the route with him, and she was planning to make the trip for a Sunday outing.

Mr. Selander was felled by the fender of the car. His skull was fractured and several ribs broken, and he was unconscious when picked up by Mr. Cook and taken to a near-by drug store. Later he was taken to the Receiving Hospital but died while being borne to the operating table.

Mr. Cook was detained until the police made a thorough investigation of the case. He was then released, but was ordered to appear at the coroner's inquest today.

TAXICAB DOES IT

C. L. Jefferson was struck down at Eleventh and Main streets by a taxicab, which fled after the accident. He was crossing the street with a friend, when the fender of the machine felled him. Both legs were broken and he was taken to the Receiving Hospital suffering from injuries which may prove fatal.

After the fleeing taxicab went M. B. Smith, driver of a jitney bus, living at No. 614 East Twenty-third street. He followed the fugitive car to Pico street, to Flower and back to Eleventh street, whence the machine returned to the scene of the accident and fled toward Vernon.

Mr. Smith secured the number of the machine and notified the police. Search was immediately begun. The machine was owned by A. M. Richard, No. 210 South Spring street. The police were going to Richard's home when they decided first to cruise along Spring street to see if the wanted car might be among the nightbirds. They found it in front of an all-night cafe, with two girls in it. The driver, Lloyd McGarvin, a chauffeur, ran when he saw the policemen, but was later found.

When taken to the police station he made a complete confession. He said a soldier and a civilian had commissioned the machine to go to Vernon. At Eleventh street, he said, he hit a man and turned to one of the passengers and said, "Did we knock him down?"

ADMIT HE FLED.

He said the passenger clutched his arm and shouted: "Get out of here you can't. Go ahead as fast as you can." He followed the man's directions and finally went to the Vernon Country Club, where they tried to get drinks but were too late. They returned. The two fares had disappeared when the police arrived and McGarvin does not know their names.

McGarvin is held on suspicion of a felony, pending the death or recovery of his victim. Attending surgeons said yesterday it was not probable Jefferson would live. He is a paperhanger, 43 years old.

FINDS A DESERTER.

Special Agent Blanford of the Department of Justice, investigating the record of Clyde L. Blake, charged in the State courts with a serious offense, has discovered Blake deserted from the cruiser Pittsburg, at San Diego, April 21, 1916. Mr. Blanford has communicated with the Bureau of Navigation as to the disposition of the man.

A BOLD STATEMENT.

"Why I do not Support Hiram Johnson for the Senate."

BY J. A. GRAVES.

I have been frequently asked if I intended to vote for Hiram Johnson for United States Senator. Answering the question, I ask if I look like a man who carries rattlesnakes around in his shirt bosom, or if I look like a man who would keep a bunch of coyotes to guard his chicken-roost.

I cannot understand how any loyal Republican can support Johnson for any office. He is not a Republican. If elected, the people of California have no guaranty other than his word that he will support the policies of the Republican party. The fact is patent that Johnson cares nothing for party ties. All he cares for is to be elected. A few years ago he was elected Governor as a Republican. He immediately turned against the party, allied himself with the Progressives, did everything he could to discredit and destroy the Republican party of the nation and of the State. He went to Chicago last spring as a member of the Progressive party and as a delegate to its national convention. In that convention he went further than any other delegate in his denunciation of the Republican party and its principles. Defeated in his efforts to have Roosevelt nominated on both the Progressive and Republican tickets, he continued his abuse of the latter party and its nominee. He came back to California and, with a great flourish of trumpets, announced his candidacy for the Progressive nomination for the United States Senate. At first there was no announced intention on his part to ask for the Republican nomination for that office. The attitude of his closest friends and the registration figures must have persuaded him that, running as a Progressive alone, he had no possible chance of securing the election. Under our present iniquitous election laws, any man can get signatures enough to a nominating petition to put him in the running for the ticket at the primary election. There was no movement among genuine Republicans to have him run for the United States Senate on the Republican ticket. He fled his nominating petition and went before the people. His henchmen (no more Republican in principle than he is) by thousands changed their registration from the Progressive party to the Republican party simply to enable them to assist in his nomination. At the date of the primary election there were more than 1,000,000 voters registered as Republicans. Over 600,000 registered voters of the State did not vote at the primary. Johnson beat his opponent for the nomination, getting the majorities in San Francisco, Alameda county and Sacramento. His vote for the Republican nomination was less than one-sixth of the total registered vote of the State. Some 8000 State employees with thousands of subordinates, all on the pay roll, worked tooth and nail for his success. Nor can you blame them. They are his constituents. To him they look for bread and butter. By no means, however, was he the choice of the rank and file of the Republicans of California.

In view of this fact, why should any loyal Republican support Johnson for the Senate? He has proven himself a man without party principles. He is seeking election at the hands of the party which he hates with all the venom of his nature. He has vilified the Republicans of California on the stump, through the press and in convention. In the Senate he will do as he pleases. He will not, in my opinion, be bound by the action of any Republican caucus. He will use his position in the Senate for his own ends. California and her interests will be with him secondary considerations.

Should Johnson be elected and should the people of California ever recover their political sanity, they will curse the day when they disgraced the Republican party by casting their votes for him. I have no objection to seeing Johnson in the United States Senate provided he goes there as the representative of the Progressive party to which he belongs. I do object to his going to the Senate sailing under false colors. His election would be a political calamity which will still further emphasize the political inconsistencies and vagaries of California. Personally, I shall vote for George S. Patton, knowing in doing so I will support a man absolutely honest even in politics.

BANK'S TROUBLES.

Arkansas Financial Mix-up Leads to Suits Here.

Suits growing out of the financial difficulties of the American National Bank of Fort Smith, Ark., were filed in the United States District Court Saturday by Henry P. Hilliard, receiver of the concern. On July 25, 1915, an assessment of \$100 a share was made on the shareholders of the bank by the Comptroller of the Currency, and it is to collect this that the actions are brought.

Judgments are sought against William Blair Haskett, owner of forty shares of stock, for \$4000; Minnie L. Haskett, owner of twenty shares, for \$2000; against Don Haskett, owner of forty shares, for \$4000; and against Mary Blair, owner of 225 shares, for \$22,500.

Politics.

(Continued from Second Page.)

There is not an iota of evidence to show the cost of "liquor-made" crime in California or anywhere else. It is customary, however, for convicted criminals to seek sympathy by saying: "Whisky did it."

Sign No. 2 says: "Saloon interests are hiding behind grape vines." Instead of this, the fact is that the prohibitionists are attacking the viticultural industry of California behind the ambuscade of the saloon. While loudly proclaiming their enmity to the saloon, they are really using the saloon as a means to knife the grape and wine industry.

Sign No. 2 says: "It costs \$10 No. 2."

A Little Blossom

To Delight the Home

When it is known that in the near future the home is to be blessed with a new arrival the first thought should be "Mother's Friend."

This is an external remedy gently applied over the stomach muscles. It makes them firm and pliant, they expand naturally without undue strain. It removes from the nerves those influences which are responsible for much of the pain incident to the period of expectancy. It is for this reason that much of the distress such as morning sickness is avoided. All prospective fathers should see to it that the expectant mother is provided with a bottle of "Mother's Friend."

The directions are simple. Get it at any drug store. It is applied by the expectant mother herself. It penetrates deeply and acts quick and splendid relief in a most gratifying manner and reflects a physical betterment to the nervous system of the baby. Don't fail to get a bottle of "Mother's Friend" today and then write Bradford Regulator Co., 419 Lamar Bldg., Atlanta, Ga., for a pretty little book brimful of information for expectant mothers. It is a delight to read it.

CITIZENS TRUST AND SAVINGS BANK
INCORPORATED IN CALIFORNIA
CAPITAL \$100,000
RESERVE \$100,000
200-204 NORTH BROADWAY
LOS ANGELES, CALIF.

My dear Bay:
You have no idea how happy I was made this morning when your letter came telling me of your success at college. Ever since your dear father left us I have looked forward to just such a time as this, and will be so glad when you receive your degree and return home to me.
I hate to pen one single note of sadness in this letter, but I have just learned that your old chum Frank K. has become a bankrupt, having lost through speculation all the fortune he inherited from his grandfather. I have just made a new will in which I have created a Trust Fund, which is to be held until you reach thirty-five. The income, however, will be paid to you quarterly until that time when you are to receive the principal.
I have named the Citizens Trust and Savings Bank as Trustee of this fund and executor of my will. This bank was executor of your father's will, hence I feel a sense of peculiar satisfaction in knowing that my affairs will be looked after by the same men as their successors in office. With much love Mother

Planting Onion Seed.

The members of which prefer garden experience to forming a glee club, so that they can earn enough money to buy a motion picture machine for their classroom.

VAN NUYS PUPILS PLANT LOWLY ONION

AIM TO EARN ENOUGH TO BUY PICTURE MACHINE.

Entire Class Votes Preference to Garden Work to that of Glee Club Singing—Schools Have Thirteen Acres of Ground for Farm Experiments.

LOCAL CORRESPONDENCE.

VAN NUYS, Nov. 5.—Pupils of the sixth grade of the Van Nuy grammar school, during the past industriously prepared a plot of ground for the planting of the lowly onion. There are thirty-six pupils in this class. Recently their instructor, Mrs. Lucile G. Orr, offered the class their choice of glee club or outdoor gardening. The verdict was unanimous for the garden.

The class has been working to obtain a moving picture machine, so the plan of planting onions for the local market and canneries was adopted. The school system owns thirteen acres for experimental farm purposes.

The boys and girls state that if they are able to buy a moving picture machine with their profits they intend using the machine to show films teaching the scientific way to farm.

Learning to Vote in the High School.

LOCAL CORRESPONDENCE.

LOS ANGELES HARBOR, Nov. 5.—Using sample ballots such as have been sent to the voters for next Tuesday's election, the pupils of the Grant school, the city's largest grammar school, went through the motions of a regularly-conducted election this week and rolled up a big plurality for Hughes. Out of the 168 votes cast the "election officials" found only five that had to be rejected. The State highway bonds carried by a vote of 88 to 11, and the land taxation amendment, No. 2, on the ballot, was approved under the vote of 27 to 13. The youthful voters appeared to be largely in the "dry" column, Amendment No. 1 carrying by a vote of 76 to 20 and No. 2 by 69 to 12.

YOUNG MAN KILLED IN AUTO COLLISION.

LOCAL CORRESPONDENCE.

SAN BERNARDINO (Cal.) Nov. 5.—A collision between a motorcycle and an automobile on the Foothill boulevard near Fontana last evening resulted in the death of Roy A. Murray, aged 22, of 414 East Twenty-fifth street, Los Angeles. Murray turned out to the left to pass a hay wagon and crashed into a machine driven by Frank Butler of Redlands. His skull was fractured and death was instantaneous. Murray bore an identification card and on it were instructions to notify Mrs. F. P. Siskely of Victorville in case of death or accident. The remains were brought to this city.

RIVERSIDE SHIPS CAR OF NEW ORANGES

LOCAL CORRESPONDENCE.

RIVERSIDE, Nov. 5.—The first shipment of oranges from this district for the 1918-17 season left the Monte Vista packing-house last night, consigned to Los Angeles for consumption in that city. The fruit is from the Oatis ranch, near Mecca, the earliest fruit grown on California soil and always the first to reach the eastern market. Two other carloads, which are now being sweeted, will be sent out within a few days, consigned to Chicago.

FIRST LAND SALE FOR THIS SEASON.

LOCAL CORRESPONDENCE.

BRAWLEY, Nov. 5.—The first important land sale reported this season was consummated here this week when H. W. Ballard paid \$21,500 cash for the Barker ranch, two miles west of this city. The ranch contains 140 acres of choice land. Mr. Ballard announced he would plant the land to cotton next year.

ESTATE HANGS ON VALIDITY OF WEDDING

LOCAL CORRESPONDENCE.

SANTA ANA, Nov. 5.—The long drawn-out contest over the estate of Mrs. Gertrude Finley Pusey, once a well-known school-teacher of Santa Ana, is back in the Superior Court here after a reversal by the Supreme Court, and today Judge West ordered a new trial.

Mrs. Pusey left an estate worth \$30,000. She married C. H. Pusey of Oregon City, Or., a few months before she drowned herself in Oregon. Under her will, written before her marriage to Pusey, none of the estate went to the widow. Pusey contested on the ground that the marriage was void.

Attorney Steele Finley brought evidence to show that when Pusey was divorced from his first wife in the early 90's no legal summons was served upon her. Judge West held that Pusey's marriage to the Santa Ana school-teacher was illegal, and the will, therefore, good. An appeal was taken, and a reversal was secured in the ground that it was not shown that when Pusey married the Santa Ana his first wife was still living. Attorney Steele says that he is prepared to prove that the first wife is still living. If Pusey wins he will get half of the estate.

Santa Barbara.

CALIFORNIA'S FIRST TANK CAR CAPTURED

POLICE HOLD IT UP WITH JINNEY AND GUN.

Two Young Bloods from Reno Cause Bombing of a Station when They Make Their Appearance on the Roads in the Vicinity of Santa Barbara.

LOCAL CORRESPONDENCE.

SANTA BARBARA, Nov. 5.—California's first "tank car" came to grief here today when members of the local police force had it up with a long revolver and a jinney. The "tank car" was operated by two Nevada youths, who, the police say, have confessed to stealing the car in Reno.

The tank came into the city at terrific speed, having had a close brush with the enemy at Goleta where the drivers had stopped long enough to capture a suitcase full of provisions left near the roadside by some local hunters. The hunters gave chase and in their hurry to get away the invaders ran into a team of horses, driven by a Chinaman and left the animals half dead on the ground. The horses were badly cut about the legs.

Warned by a phone from Goleta, the local police stalled the department jinney in front of the stolen car as it came into the city. The officers pulled a revolver on the driver with a command to put their "hands up." They went up.

The tank was armed, the police discovered, with two Winchester, another five and three daggors. There were a few boxes of dum-dum bullets, some surgical instruments and other warlike implements. A couple of alarm clocks and several bunches of keys, toilet water and a few articles of refinement gave the outfit a moving picture appearance on close inspection.

The drivers of the car, apparently young men of about 20 years, gave their names as Karl Schoegen and Ellwood Luce of Reno, the police said. The car had the Nevada number 5904.

SHARP CONTEST IN ANNUAL FLOWER EXHIBIT.

Covina Grower for Two Years Had Given Chief Prize and Made Vigorous Effort this Year to Gain Permanent Control of the Sweepstakes Award.

LOCAL CORRESPONDENCE.

AZUSA, Nov. 5.—Pronounced by exhibitors and patrons as the most entertaining flower show ever held by the Azusa Women's Club, the fifth annual "mum" show came to a brilliant close Saturday night.

When the awards were announced by the judges there was much excitement as it became apparent that two of the exhibitors, Mrs. S. S. Aschenbrenner of Covina and Mrs. O. J. Berner of Azusa, were running a close race in points. Mrs. Berner finally being credited with just eight places more than Covina. For two years it had been in the possession of Mrs. Aschenbrenner and had she won this year it would have passed into her hands permanently.

The contest was enlivened by the fact that Mrs. Aschenbrenner had earlier in the week received a goodly number of awards at the Los Angeles flower show. But eight "second-and-third" ribbons swelled Mrs. Berner's total enough to give her the lead.

Among the larger displays which attracted attention was that from the gardens of Library Park. Plans have been started to make the next year's show larger in scope and an effort will be made to bring in exhibitors from several neighboring cities in the valley. Covina, Glendora and Monrovia were the only places represented this year, exhibitors from the first two receiving a total of nine individual awards.

MOTION PICTURE MANAGER RESIGNS.

LOCAL CORRESPONDENCE.

SANTA BARBARA, Nov. 5.—Announcement has been made at the American Film Company plant here of the resignation of F. G. Lynch as manager.

S. S. Hutchinson of Chicago, president of the company, who has been on the coast for the last month, said today that the resignation had been accepted, but Mr. Lynch's successor would not be named for another week. Mr. Lynch will probably remain here during the present month. His future plans have not been made known.

BAND LEADER LEAVES WITHOUT GOOB-BY.

LOCAL CORRESPONDENCE.

VISALIA, Nov. 5.—Having just got through discussing the exploits of Edgar Turman Panocast, Porterville musician, who departed without telling anybody about it after he had made a trail of bad checks that would put to blush the paper used in a four game, the band of this town are now talking about the departure of Henry Howard, for the past few months director of the Visalia band. Records of the band it is asserted, show that there should be \$60 in the treasury.

Warrants have been issued for Howard on the charge of beating a board bill. He blew into this town

MORE RAIN ADDED TO GOOD MEASURE.

LIGHT PRECIPITATION EXPERIENCED IN CITRUS BELT.

Good for Crops.

Los Angeles Adds Eight Hundredths of an Inch to its Splendid Record for the Present Season—Santa Ana Reports an Equal Amount.

LOCAL CORRESPONDENCE.

A light rain spread over the citrus belt in Southern California at an early hour Sunday morning. Los Angeles reported eight-hundredths of an inch, through the medium of the governmental measurement, taken at the office of the Weather Bureau. This makes a total of 3.55 inches for the season.

Last year the district did not have even a trace worth measuring for the period commencing on July 1 up to November 1. The present excellent condition of the crops throughout the belt is traceable, according to experts, directly to the plentifulness of moisture. Weather prophets are still insisting that the year will show an unusual amount in precipitation—insuring a bumper crop for the Southland.

Santa Ana reported the same rainfall as Los Angeles. The total for the season at Santa Ana is placed at 1.83 inches.

If the vote tomorrow were to be cast for most popular roofing, instead of for the election of national officials, there would be an overwhelming plurality in favor of

Certain-teed Roofing

This is indicated by the fact that "The General" makes 1/3 of all the asphalt roll roofing made in America. The balance is "scattered" among 39 other manufacturers.

Each year CERTAIN-TEED rolls up a strikingly increasing number of advocates, because this type of roof is coming to be recognized as the most efficient covering for all kinds of buildings, with either flat or pitched roofs.

CERTAIN-TEED is clean and sanitary, costs less to buy, less to lay, less to maintain and less per year of life. It is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). It actually lasts longer.

The secret of this long life lies in the quality of the roofing felt, and the asphalt saturation.

Roofings do not wear out—their life depends upon the length of time they retain the saturation. CERTAIN-TEED is made of the best quality of roofing felt; and is thoroughly saturated with the General's own blend of soft asphalt, which keeps the inner saturation soft and prevents the drying-out process so destructive to the ordinary roofing.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.

Progress of the Southwest's Great Mining Revival—Latest Developments Chronicled

VALUES GAIN IN NEW STRIKE.

United Northern has Large Ledge at Oatman.

Other Properties Register Ore Discoveries.

Activity Marked in the Ray District.

[SPECIAL CORRESPONDENCE.]

OATMAN (ARIZ.) Nov. 4.—With every round of shots exposing higher values, the United Northern is in on the vein for a distance of thirty feet, and the hanging wall is not yet in sight. An official assay given out by James R. Goldworthy, engineer in charge, shows values for the first five feet of \$5.68 a ton.

The Northern has been working two shifts and the mine has never lost a day. Mr. Goldworthy expects to make another big mine of the property. The main material is said to be in the vein with the Tom Reed, United Eastern and Big Jim.

The Midway Mining and Milling Company, which owns fourteen claims near the old Moss mine, has two shifts of operators at work under the direction of J. E. Elcheberger, a mining engineer, formerly very successful at Cripple Creek. The shaft is down 135 feet and assays range from 40 cents to \$5 a ton. In four claims the cropping is traceable for 5000 feet. The property is equipped with one of the best plants in the Oatman district. The greatest interest attaches to the recent strike in the Nellie. From \$12.24 last week, as reported in The Times, assay values now appear to have increased to more than double that figure. Three authorized cross samples secured by a committee of representatives of the mine, gave \$25.11, \$37.20 and \$14.35. The first sample was taken across nine feet, the second across eighteen inches, not including the nine feet, and the third across four feet, including the eighteen inches. The drill holes continue in ore, which appears to be still improving toward the foot wall.

Extending the proven district eight miles south from the Nellie strike has given a great stimulus to the camp. There are three main features in this district. It is believed—the Gold Reed, the Tom Reed and the Pioneer. It is contended that the Nellie belongs to the last named, being on an offshoot which takes in all the Black Range region. Proven mines are on all three features. The Pioneer with several hundred thousand dollars' worth of ore, is the main one on the future of that name.

SHOWS FREE GOLD.

The Black Range, on the same vein and a few hundred feet south of the Nellie strike, has started a three-compartment shaft to attain a depth of 400 feet. Work is also in No. 1, a shaft close to the Nellie line, where values are being found. Many pieces of ore show free gold. Some of the ore is believed the rock will average almost, if not quite, a millling grade.

Of high importance are the developments at the Pioneer. In a raise from a depth of 400 feet the Gold Reed has four feet of ore which has yielded assays of \$25 a ton. This is being placed in bins at the mill to be treated during the next few days. The mill will be kept by that time with a Los Angeles manufactured pulverizer to grind to 200-mesh without stamps and a centrifugal gold separator, which is a Los Angeles invention.

The appearance of new ore in the Arizonas-Tom Reed and Pioneer caused the visit here this week of Carl P. Shadler, August R. Marcus and George Zobein, stockholders, the last-named being president of the Los Angeles-based Pioneer. Good values have been encountered in two cross-cuts in the Pioneer and the high-grade ore of the Arizonas-Tom Reed is still in view at 400 feet of depth.

At ninety feet the Crown City ledge of the Tom Reed has been found to six feet of solid ore which, according to the latest assays, average \$10 a ton. Assays in the hundreds are from the ore.

Work has been under way for a week on the Sunnyside group, with C. B. McCollum, superintendent of the Chicago Syndicate in charge. The work is in the nature of surface prospecting. In one place near the Mojave-Wonder line on the south and in the other close to the Tehuacana group adjoining on the north. The company is controlled by the controlling syndicate of the United Easterns.

The Chicago Syndicate is cross-cutting and drifting on a promising ledge on the south. The values are low, but Supt. McCollum says the members of the company, composed of the Swifts, Mitchells and other multi-millionaires of Chicago, are entirely satisfied with the showing and will go ahead.

FINANCING FUND.

FOR IMPROVEMENTS.

[SPECIAL CORRESPONDENCE.]

FRESNOTT (ARIZ.) Nov. 2.—A fund of \$200,000 has been provided for the development of the Cash mines, near Maxton. Additions of a flotation plant and electrical operating equipment will be made to the mill, and 100 tons of ore will be treated daily. The main shaft is to be sunk to a depth of 100 feet, according to Manager N. H. Getchell.

A fifty-ton mill is in successful operation on the Arizona mines, near Humboldt, owned by F. M. Anderson and Sidney Birch. They have shipped twenty-one carloads of ore to El Paso, during the development stage, but hereafter will send concentrates only.

In Copper Basin, the old Miami mine has been unwatered by D. A. Burns of Oatman, who lately secured control. He will start work on the 200 level, to be made to the ledge. High-grade ore is being taken out of the Nelson property at Crown King and shipping will begin soon. Work is being continued on the Nelson tunnels, one of which is now over half a mile long.

H. O. Howard, a Nevada mining man, has purchased the interest of the Oatman Development Company in the old Tom Reed at Humboldt and has gone to New York to consult his associates on plans that include the building of a new mine. The Shannon Copper Company of

Clifton has purchased the holdings of the Yaeger Canyon Copper Company, five miles below Jerome, in the Black Hills, and already has taken charge. The Yaeger has been operated for years and has a large amount of development.

E. O. Weaver has sold to the Big Ledge Company two claims that will consolidate the ground between the Henrietta and Copper properties of the corporation. The new smelter for the Big Ledge Company will be erected by a separate corporation, the Great Western Smelters Company. It will be an entirely new plant on the site of the old Treadwell works, near Mayer, and to handle 1000 tons a day, of which the Big Ledge mines even now is prepared to furnish 500 tons.

Preparations are being made to double the production of the Blue bell mine, from which now is coming the principal supply of the Humboldt smelter, owned by the same corporation. The mine has been developed to the depth of 1000 feet and the quality and quantity of the ore are said to be improving.

A ten-drill air compressor is being installed on the Little Butte mine, near Bouse, lately taken over by the Arizona United Mines Company.

Red Bluff, Cal., men have purchased the claims of the Thunder and Alexander Burrell in the Eagle Tail range of Yuma county on a cash and royalty basis.

RAY ACTIVITY.

STEADY INCREASE.

[SPECIAL CORRESPONDENCE.]

RAY (ARIZ.) Nov. 2.—The Ray Consolidated is handling 10,000 tons of ore daily. Everything is done to manage the transportation and treatment of the product expeditiously, and success in large measure has accrued to the company as a result.

The first churn drill on the Juarez claim of the Arizona Ray is down 145 feet and in the cropping of the ore deposit about 500 feet from the surface. The churn drill is being driven about 500 feet from the surface. The churn drill is being driven about 500 feet from the surface.

Platinic chloride, formerly much in use by photographers for producing what is known as the platinum tone, has advanced so much as to be almost prohibitive in price.

The new plant of the Ray Consolidated is in operation in about sixty days. The company, it is believed, will be the largest producer of platinum and palladium in this country. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. MANY VISIT NEW DISTRICT.

NEVADA CAMP FEELS STIMULUS OF SHIPMENTS.

Boss Plans to Treat Rare Metal Ore will Operate by First of the Year—Yellow Pine has Big Reserve—Forty Mines are Yielding Varied Products.

[SPECIAL CORRESPONDENCE.]

GOODSPRINGS (NEV.) Nov. 3.—Goodsprings is beginning to feel the effect of the spread of news regarding the shipments of rich copper ore being made by the Boss mine and the announcement by that company that the machinery had been purchased for the new plant that will be built at the mine. There are many strangers in town who have been visiting the various properties and it is reported that many operations have been taken on claims in the neighborhood of the Boss and Oro Amigo mines. The new plant of the Boss mine is a very advantageous one for them and runs until July, 1917.

Platinum and palladium continue to advance in price, \$100 an ounce being bid for platinum and \$40 for palladium. It is common belief that this rise is due to the demand for these precious metals by the jewelry trade. This is the first time in so long as the increasing use of platinum in the manufacture of sulphuric acid. The new process, known as the contact method, is now being applied by the large smelters and consists of crystallizing the very rich copper ore from its platinum ore.

Platinic chloride, formerly much in use by photographers for producing what is known as the platinum tone, has advanced so much as to be almost prohibitive in price.

The new plant of the Boss mine is in operation in about sixty days. The company, it is believed, will be the largest producer of platinum and palladium in this country. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium. It is conservatively estimated that the Ray Consolidated has not less than 20,000 ounces of platinum and palladium in the ore blocked out in the mine.

The Oro Amigo mine is now setting out higher grade ore for shipment to the smelter. Samples assay about \$35 per ton in gold, copper, platinum, and palladium.
